

Report of the
Workshop on Scientific computing with Python
July 29-31,2010

A three day workshop on Scientific Computing with Python was organized at U C College in association with FOSSEE Project IIT Bombay and funded as part of National Mission on Education through ICT. The target audience was Teachers/ Research scholars from Physics, Chemistry, Mathematics, Computer Science and IT streams. The Workshop focused on hands on training in Python .

The three day workshop was guided and assisted by leading python trainers (Mr Nishant Amuluru, Mr Puneet Chaganti, Mr Amit Singh Sethi) representing FOSSEE project IIT Bombay.

There were 50 participants from 30 institutions of Kerala and Tamil Nadu. Most of the participants were from Physics, Mathematics and Computer Science background. There were couple of participants from mechanical department as well. All participants were rigorously trained to use Python for Scientific computational purposes. In addition to the basic training on Python the participants were also trained in SAGE, Mayavi, i python, SCITE, Python-Scipy.
